

Policy for Travel

This policy applies to all travels and all EWB members.

MAIN PRINCIPLES

We travel conscious of the environment. This means that we:

- if possible, choose travel by train over car or airplane
- set aside funds for our internal climate fund when flying

We travel conscious of cost. This means that we:

- travel in economy or 2nd class
- stay in hotels with a reasonable, but not luxury, standard

We travel conscious of necessity. This means that we:

- ask ourselves if the trip is really necessary and if Skype (or similar) could be an alternative

We travel conscious of risk. This means that we:

- during international projects, we strictly follow our guidelines and instructions for international project travel
- follow traffic laws
